

CLAIMS

1. In combination: a container body, an opening in said container body, an inner wall on said container body, a ledge on said inner wall proximate said opening, a sorbent body, and an edge on said sorbent body overlying and supported by said ledge.

2. A combination as set forth in claim 1 a seal mounted across said opening on the opposite side of said sorbent body from said ledge.

3. A combination as set forth in claim 2 including a cap mounted on said container body and located across said opening on the opposite side of said seal from said sorbent body.

4. A combination as set forth in claim 1 including a cap mounted on said container body and located across said opening on the opposite side of said sorbent body from said ledge.

5. A combination as set forth in claim 1 including a neck on said container body, and said ledge being located within said neck.

6. A combination as set forth in claim 5 a seal mounted across said opening on the opposite side of said sorbent body from said ledge.

7. A combination as set forth in claim 6 including a cap mounted on said container body and located across said opening on the opposite side of said seal from said sorbent body.

8. A combination as set forth in claim 5 including a cap mounted on said container body and located across said opening on the opposite side of said sorbent body from said ledge.

9. A combination as set forth in claim 1 wherein said sorbent is in the shape of a disc.

10. A combination as set forth in claim 1 wherein said sorbent is in the shape of a T.

11. In combination: a container body, an opening in said container body, an inner wall on said container body, a basket, a plurality of fingers on said basket engaging said inner wall, and a sorbent body in said basket.

12. A combination as set forth in claim 11 including a seal across said opening.

13. A combination as set forth in claim 12 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

14. A combination as set forth in claim 11 including a cap mounted across said opening.

15. A combination as set forth in claim 11 including a tab on said basket extending toward said opening.

16. A combination as set forth in claim 15 including a seal across said opening.

17. A combination as set forth in claim 16 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

18. A combination as set forth in claim 15 including a cap mounted across said opening.

19. A combination as set forth in claim 11 including a neck on said container body, and wherein said inner wall and said opening are in said neck.

20. A combination as set forth in claim 19 including a seal across said opening.

21. A combination as set forth in claim 20 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

22. A combination as set forth in claim 19 including a cap mounted across said opening.

23. A combination as set forth in claim 19 including a tab on said basket extending toward said opening.

24. A combination as set forth in claim 23 including a seal across said opening.

25. A combination as set forth in claim 24 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

26. A combination as set forth in claim 23 including a cap mounted across said opening.

27. A combination as set forth in claim 11 including a ledge on said inner wall, and a protrusion on certain of said fingers resting on said ledge.

28. A combination as set forth in claim 27 including a seal across said opening.

29. A combination as set forth in claim 28 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

30. A combination as set forth in claim 27 including a cap mounted across said opening.

31. A combination as set forth in claim 27 including a tab on said basket extending toward said opening.

32. A combination as set forth in claim 31 including a seal across said opening.

33. A combination as set forth in claim 32 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

34. A combination as set forth in claim 31 including a cap mounted across said opening.

35. A combination as set forth in claim 31 including a neck on said container body, and wherein said inner wall and said opening are in said neck.

36. A combination as set forth in claim 35 including a seal across said opening.

37. A combination as set forth in claim 36 including a cap mounted across said opening on the opposite side of said seal from said sorbent body.

38. A combination as set forth in claim 35 including a cap mounted across said opening.

39. A container insert for supporting a body within a container comprising a basket, a base on said basket, and a plurality of fingers resiliently mounted relative to said base and extending outwardly at an obtuse angle relative to said base.

40. A container insert as set forth in claim 39 wherein said fingers define a perimeter, and at least one tab extending outwardly away from said base and located within said perimeter.

41. A container insert as set forth in claim 39 wherein said fingers define a perimeter, and a plurality of tabs extending outwardly away from said base and located within said perimeter.
